01. EXPERIENCE

2012 – present

Generation Moonshot Senior Full Stack WordPress Developer

I build and maintain high traffic websites that utilize the WordPress platform. I am heavily involved in projects from all the way from initial inception to completing development. My main focus has been pushing the WordPress Platform to its absolute limit while also holding the highest standards for speed, code quality, team collaboration and project deadlines. I was hired in 2012 and quickly rose to the role of Senior Developer among a group of 7 other developers. Below is my career highlight reel.

- Developed the e-commerce store for a presidential candidate
- Engineered a donation platform for a presidential candidate
- Created the sponsored content platform for a major Fortune 500 Magazine and iconic fashion brand.
- Developed a user voting platform for a national news network
- Engineered the entire user login system for a presidential candidate and national news network

2010 – present
